

God and Me

Seb Hopkins

*If I were God and God were me
This world would be the place to be
From the starry skies to the silent sea
This world would live in harmony.*

*If I were God and God were me
This world would live in ecstasy
From all the little birds and bees
To the mountains of the Pyrenees.*

*If I were God and God were me
This world would set its people free
The fields would yield enough to feed
The people of humanity.*

*If I were God and God were me
This world would care for those in need
With love and faith and care
To completely banish all despair.*

*If I were God and God were me
We would offer perfect synergy
Throughout the lands throughout the world
Mankind would have tranquility.*
